Arteriosclerosis

AN OFFICIAL JOURNAL OF THE AMERICAN HEART ASSOCIATION

Index to Volume 10
January–December 1990

Subject Index

A

Acetylsalicylic acid

Prevention of Myocardial Lesions in JCR:LA-corpulent Rats by Nifedipine, 658

Actin

Endothelial Monolayer Integrity. Perturbation of F-Actin Filaments and the Dense Peripheral Band-Vinculin Network, 76

Activation

Effects of Activation on Lipid and Lipoprotein Metabolism in Murine Macrophages, 8

Acyl-CoA:cholesterol acyltransferase

Effects of Hypoxia on Sterol Synthesis, Acyl-CoA:Cholesterol Acyltransferase Activity, and Efflux of Cholesterol in Cultured Rabbit Skin Fibroblasts, 106

Adenosine triphosphate

Nucleotide Profiles in Normal Minipig Arterial Tissue, 745

Adipose tissue

"Portal" Adipose Tissue as a Generator of Risk Factors for Cardiovascular Disease and Diabetes, 493

Adipose tissue metabolism

Regional Distribution of Body Fat, Plasma Lipoproteins, and Cardiovascular Disease, 497

Adventitia

Role of Elastase and Lysyl Oxidase Activity in Spontaneous Rupture of Internal Elastic Lamina in Rats, 1136

African green monkeys

Species, Diet, and Gender Differences in Plasma Postheparin Lipolytic Activities in Nonhuman Primates. Relationships with Plasma Lipids and High Density Lipoproteins, 350

Age

Serum Lipid Profile in an Elderly Chinese Population, 1097

Aggregation

Effect of Fish Oil on Atherogenesis in Watanabe Heritable Hyperlipidemic Rabbit, 597

Whole Blood Impedance Platelet Aggregometry and Ischemic Heart Disease. The Caerphilly Collaborative Heart Disease Study, 1032

Albumin

Macromolecular Transport across Arterial and Venous Endothelium in Rats. Studies with Evans Blue-Albumin and Horseradish Peroxidase, 188

Albumin transfer

Roles of Calcium, Cyclic Nucleotides, and Protein Kinase C in Regulation of Endothelial Permeability, 410

Alpha high density lipoproteins

Pre-Beta High Density Lipoprotein. Unique Disposition of Apolipoprotein A-I Increases Susceptibility to Proteolysis, 25

Amphipathic helix

Use of Synthetic Peptide Analogues to Localize Lecithin:Cholesterol Acyltransferase Activating Domain in Apolipoprotein A-I, 95

Anticoagulation

Dose- and Shear Rate-dependent Effects of Heparin on Thrombogenesis Induced by Rabbit Aorta Subendothelium Exposed to Flowing Human Blood, 607

Antihypertensive therapy

Normalization of Lipid Metabolism after Withdrawal from Antihypertensive Long-term Therapy with Beta Blockers and Diuretics, 145

Antiplatelet agents

Inhibition of Thrombus Formation In Vivo by Novel Antiplatelet Agent, 367

Antithrombotic therapy

Inhibition of Thrombus Formation In Vivo by Novel Antiplatelet Agent, 367

Aortic aneurysms

Analysis of Indium-111 Platelet Kinetics and Imaging in Patients with Aortic Grafts and Abdominal Aortic Aneurysms, 1037

Aortic proteoglycans

Cationic Polypeptides Modulate In Vitro Association of Low Density Lipoprotein with Arterial Proteoglycans, Fibroblasts, and Arterial Tissue, 695

Aortic stenosis

Noninvasive Ultrasound Evaluation of Pressure Gradients in Aortic Root of Homozygotes for Familial Hypercholesterolemia, 710

Aortic tissue

Cationic Polypeptides Modulate In Vitro Association of Low Density Lipoprotein with Arterial Proteoglycans, Fibroblasts, and Arterial Tissue, 695

Apolipoprotein A-I

Isolation and Characterization of Plasma Lipoproteins of Common Marmoset Monkey. Comparison of Effects of Control and Atherogenic Diets, 633

Isolation and Characterization of Several Plasma Apolipoproteins of Common Marmoset Monkey, 625

Polyclonal Antibodies against Formaldehyde-modified Apolipoprotein A-I. An Approach to Circumventing Fixation-induced Loss of Antigenicity in Immunocytochemistry, 564

Pre-Beta High Density Lipoprotein. Unique Disposition of Apolipoprotein A-I Increases Susceptibility to Proteolysis, 25

Use of Synthetic Peptide Analogues to Localize Lecithin:Cholesterol Acyltransferase Activating Domain in Apolipoprotein A-I, 95

Apolipoprotein A-II

Isolation and Characterization of Plasma Lipoproteins of Common Marmoset Monkey. Comparison of Effects of Control and Atherogenic Diets, 633

Isolation and Characterization of Several Plasma Apolipoproteins of Common Marmoset Monkey, 625

Apolipoprotein A-IV

Isolation and Characterization of Several Plasma Apolipoproteins of Common Marmoset Monkey, 625

Apolipoprotein B

Association of DNA Polymorphism at the Apolipoprotein B Gene Locus with Coronary Heart Disease and Serum Very Low Density Lipoprotein Levels, 17

Distribution of Oxidation Specific Lipid-Protein Adducts and Apolipoprotein B in Atherosclerotic Lesions of Varying Severity from WHHL Rabbits, 336

- Does Measurement of Apolipoprotein B Have a Place in Cholesterol Management?, 668
- Familial Defective Apolipoprotein B-100. Comparison with Familial Hypercholesterolemia in 18 Cases Detected in Munich, 577
- Is It Time To Measure Apolipoprotein B?, 665
- The 12th Annual Meeting of the European Lipoprotein Club, 486

 Species, Diet, and Gender Differences in Plasma Postheparin Lipolytic Activities in Nonhuman Primates. Relationships with Plasma Lipids and High Density Lipoproteins, 350
 Testosterone Regulates Metabolism of Plasma Chylomicrons in Rats, 591

Lipoprotein metabolism

Isolation and Characterization of Several Plasma Apolipoproteins of Common Marmoset Monkey, 625
 Regional Distribution of Body Fat, Plasma Lipoproteins, and Cardiovascular Disease, 497

Lipoprotein receptors

Abnormal Composition of Hypertriglyceridemic Very Low Density Lipoprotein Determines Abnormal Cell Metabolism, 1088

Lipoproteins

Apoprotein E Biosynthesis in the Cholesterol-fed Guinea Pig, 31
 Characterization In Vitro of Interaction of Human Apolipoprotein E-free High Density Lipoprotein with Human Hepatocytes, 1127
 Effect of Dietary Fish Oil on Coronary Artery and Aortic Atherosclerosis in African Green Monkeys, 1102
 Effects of Activation on Lipid and Lipoprotein Metabolism in Murine Macrophages, 8
 Insulin Resistance Is Associated with Lipid and Lipoprotein Abnormalities in Subjects with Varying Degrees of Glucose Tolerance, 223
 Lipoprotein(a). A Unique Risk Factor for Atherothrombotic Disease, 672
 Microalbuminuria. Potential Marker for Increased Cardiovascular Risk Factors in Nondiabetic Subjects?, 727
 Phenotypic Effects of Apolipoprotein Structural Variation on Lipid Profiles. III. Contribution of Apolipoprotein E Phenotype to Prediction of Total Cholesterol, Apolipoprotein B, and Low Density Lipoprotein Cholesterol in the Healthy Women Study, 379
 Plasma Membrane Enrichment with Cis-unsaturated Fatty Acids Enhances LDL Metabolism in U937 Monocytes, 111
 Relationship of Endogenous Sex Steroid Hormones to Lipids and Apoproteins in Postmenopausal Women, 1058
 Secretion of Plasminogen Activator Inhibitor-1 from Cultured Human Umbilical Vein Endothelial Cells Is Induced by Very Low Density Lipoprotein, 1067
 Serum Lipid Profile in an Elderly Chinese Population, 1097

Liver

Apoprotein E Biosynthesis in the Cholesterol-fed Guinea Pig, 31
 Regulation of Hepatic High Density Lipoprotein Binding Proteins after Administration of Simvastatin and Cholestyramine to Rats, 1045

Liver lipids

Postprandial Lipemia and Lipoprotein Lipase in the Rabbit Are Modified by Olive and Coconut Oil, 421

Long-term mortality

Cholesterol and Coronary Heart Disease Mortality. A 23-year Follow-up Study of 9902 Men in Israel, 512

Lovastatin

Unexpected Failure of Bile Acid Malabsorption to Stimulate Cholesterol Synthesis in Sitosterolemia with Xanthomatosis. Comparison with Lovastatin, 289

Low density lipoprotein apheresis

Hemostatic Variables in Homozygous Familial Hypercholesterolemia: Effect of Regular Plasma Cholesterol Removal by Low Density Lipoprotein Apheresis, 1119

Low density lipoprotein associations

Cationic Polypeptides Modulate In Vitro Association of Low Density Lipoprotein with Arterial Proteoglycans, Fibroblasts, and Arterial Tissue, 695

Low density lipoprotein cholesterol

Hemostatic Variables in Homozygous Familial Hypercholesterolemia: Effect of Regular Plasma Cholesterol Removal by Low Density Lipoprotein Apheresis, 1119

Low density lipoprotein receptors

Unexpected Failure of Bile Acid Malabsorption to Stimulate Cholesterol Synthesis in Sitosterolemia with Xanthomatosis. Comparison with Lovastatin, 289

Low density lipoproteins

Effect of Dietary Fat Saturation and Cholesterol on LDL Composition and Metabolism. In Vivo Studies of Receptor and Nonreceptor-mediated Catabolism of LDL in Cebus Monkeys, 119
 Fate of Fibrinogen in Human Arterial Intima, 263
 Hemodynamics and Low Density Lipoprotein Metabolism. Rates of Low Density Lipoprotein Incorporation and Degradation along Medial and Lateral Walls of the Rabbit Aortoiliac Bifurcation, 688
 Inheritance of Low Density Lipoprotein Subclass Patterns in Familial Combined Hyperlipidemia, 520
 Lipoprotein(a), Fibrin Binding, and Plasminogen Activation, 240
 Noninvasive Imaging of ^{99m}Tc-labeled Low Density Lipoprotein Uptake by Tendon Xanthomas in Hypercholesterolemic Patients, 256
 Relationship between Sensitivity to Dietary Fat and Dietary Cholesterol, 394

Lysyl oxidase

Role of Elastase and Lysyl Oxidase Activity in Spontaneous Rupture of Internal Elastic Lamina in Rats, 1136

M**Macromolecular transport**

Macromolecular Transport across Arterial and Venous Endothelium in Rats. Studies with Evans Blue-Albumin and Horseradish Peroxidase, 188

Macrophage cholesterol metabolism

Influence of High Density Lipoprotein on Esterified Cholesterol Stores in Macrophages and Hepatoma Cells, 135

Macrophages

Atherogenesis during Low Level Hypercholesterolemia in the Nonhuman Primate. I. Fatty Streak Formation, 164
 Atherogenesis during Low Level Hypercholesterolemia in the Nonhuman Primate. II. Fatty Streak Conversion to Fibrous Plaque, 178
 Distribution of Oxidation Specific Lipid-Protein Adducts and Apolipoprotein B in Atherosclerotic Lesions of Varying Severity from WHHL Rabbits, 336
 Effects of Activation on Lipid and Lipoprotein Metabolism in Murine Macrophages, 8
 Macrophage and Smooth Muscle Cell Proliferation in Atherosclerotic Lesions of WHHL and Comparably Hypercholesterolemic Fat-fed Rabbits, 680
 Platelet Secretory Products Increase Low Density Lipoprotein Oxidation, Enhance Its Uptake by Macrophages, and Reduce Its Fluidity, 559

Male rats

Testosterone Regulates Metabolism of Plasma Chylomicrons in Rats, 591

Maroon

Analysis of Atherosclerosis Susceptibility in Mice with Genetic Defects in Platelet Function, 648

Media

Role of Elastase and Lysyl Oxidase Activity in Spontaneous Rupture of Internal Elastic Lamina in Rats, 1136

Meetings

The 12th Annual Meeting of the European Lipoprotein Club, 486

Menopause

Inhibition of Coronary Artery Atherosclerosis by 17-beta Estradiol in Ovariectomized Monkeys. Lack of an Effect of Added Progesterone, 1051
Ischemic Heart Disease Risk in Postmenopausal Women. Effects of Estrogen Use on Glucose and Insulin Levels, 531
Relationship of Endogenous Sex Steroid Hormones to Lipids and Apoproteins in Postmenopausal Women, 1058

Mice

Analysis of Atherosclerosis Susceptibility in Mice with Genetic Defects in Platelet Function, 648
Atherosclerosis Susceptibility Differences among Progenitors of Recombinant Inbred Strains of Mice, 316

Microalbuminuria

Microalbuminuria. Potential Marker for Increased Cardiovascular Risk Factors in Nondiabetic Subjects?, 727

Microfilaments

Endothelial Monolayer Integrity. Perturbation of F-Actin Filaments and the Dense Peripheral Band-Vinculin Network, 76
In Vitro Endothelial Wound Repair. Interaction of Cell Migration and Proliferation, 215

Microtubules

In Vitro Endothelial Wound Repair. Interaction of Cell Migration and Proliferation, 215

Migration

In Vitro Endothelial Wound Repair. Interaction of Cell Migration and Proliferation, 215

Mitosis

Macromolecular Transport across Arterial and Venous Endothelium in Rats. Studies with Evans Blue-Albumin and Horseradish Peroxidase, 188

Monensin

Retroendocytosis of High Density Lipoproteins by the Human Hepatoma Cell Line, HepG2, 582

Monkeys

Effect of Dietary Fish Oil on Coronary Artery and Aortic Atherosclerosis in African Green Monkeys, 1102

Monoclonal antibodies

Antisera and Monoclonal Antibodies Specific for Epitopes Generated during Oxidative Modification of Low Density Lipoprotein, 325

Monocyte-macrophages

Dysregulation of Lipid Metabolism in Tangier Monocyte-derived Macrophages, 1010
Expression of Elastase Activity by Human Monocyte-Macrophages Is Modulated by Cellular Cholesterol Content, Inflammatory Mediators, and Phorbol Myristate Acetate, 246

Monocyte tissue factor

Hemostatic Variables in Homozygous Familial Hypercholesterolemia: Effect of Regular Plasma Cholesterol Removal by Low Density Lipoprotein Apheresis, 1119

Myocardial infarction

Measuring Plasma Fibrinogen to Predict Stroke and Myocardial Infarction, 1

Myocardial lesions

Prevention of Myocardial Lesions in JCR:LA-corpulent Rats by Nifedipine, 658

Myosin isoforms

Myosin Isoform Expression and Smooth Muscle Cell Heterogeneity in Normal and Atherosclerotic Rabbit Aorta, 996

N**N-3 fatty acids**

Effect of Fish Oil on Lipoproteins, Lecithin:Cholesterol Acyltransferase, and Lipid Transfer Protein Activity in Humans, 85

N-6 fatty acids

Effect of Fish Oil on Lipoproteins, Lecithin:Cholesterol Acyltransferase, and Lipid Transfer Protein Activity in Humans, 85

N-linked (asparagine-linked) sugar chains

Heterogeneity of N-linked Sugar Chains of Apolipoprotein B-100 in Watanabe Heritable Hyperlipidemic and Fasting Rabbits, 386

Nifedipine

Prevention of Myocardial Lesions in JCR:LA-corpulent Rats by Nifedipine, 658

Nonhuman primates

Atherogenesis during Low Level Hypercholesterolemia in the Nonhuman Primate. I. Fatty Streak Formation, 164
Atherogenesis during Low Level Hypercholesterolemia in the Nonhuman Primate. II. Fatty Streak Conversion to Fibrous Plaque, 178

Noninsulin-dependent diabetes mellitus

Persistent Abnormalities in Lipoprotein Composition in Noninsulin-dependent Diabetes after Intensive Insulin Therapy, 232

Nuclear imaging

Noninvasive Imaging of ^{99m}Tc-labeled Low Density Lipoprotein Uptake by Tendon Xanthomas in Hypercholesterolemic Patients, 256

Nuclear scintigraphy

Dynamic Monitoring of Platelet Deposition on Severely Damaged Vessel Wall in Flowing Blood. Effects of Different Strokes on Thrombus Growth, 306

Nucleotides

Nucleotide Profiles in Normal Minipig Arterial Tissue, 745

O**Obesity**

"Portal" Adipose Tissue as a Generator of Risk Factors for Cardiovascular Disease and Diabetes, 493
Regional Distribution of Body Fat, Plasma Lipoproteins, and Cardiovascular Disease, 497
Relationship of Endogenous Sex Steroid Hormones to Lipids and Apoproteins in Postmenopausal Women, 1058

Oil red O stain

Effect of Dietary Magnesium on Development of Atherosclerosis in Cholesterol-fed Rabbits, 732

Olive oil

Postprandial Lipemia and Lipoprotein Lipase in the Rabbit Are Modified by Olive and Coconut Oil, 421

Omega-3 fatty acids

Effect of Fish Oil on Atherogenesis in Watanabe Heritable Hyperlipidemic Rabbit, 597

Omental tissue

Thrombogenicity of Vascular Cells. Comparison between Endothelial Cells Isolated from Different Sources and Smooth Muscle Cells and Fibroblasts, 437

Open canalicular system

Fibrinogen Receptors Do Not Undergo Spontaneous Redistribution on Surface-activated Platelets, 738

Oral contraceptives

Carotid Artery Atherosclerosis in Cholesterol-fed Female Cynomolgus Monkeys. Effects of Oral Contraceptive Treatment, Social Factors, and Regional Adiposity, 358

Oxidized lipoproteins

Distribution of Oxidation Specific Lipid-Protein Adducts and Apolipoprotein B in Atherosclerotic Lesions of Varying Severity from WHHL Rabbits, 336

Oxidized low density lipoproteins

Antisera and Monoclonal Antibodies Specific for Epitopes Generated during Oxidative Modification of Low Density Lipoprotein, 325

Platelet Secretory Products Increase Low Density Lipoprotein Oxidation, Enhance Its Uptake by Macrophages, and Reduce Its Fluidity, 559

P**P388.D1 cells**

Influence of High Density Lipoprotein on Esterified Cholesterol Stores in Macrophages and Hepatoma Cells, 135

Pale ear

Analysis of Atherosclerosis Susceptibility in Mice with Genetic Defects in Platelet Function, 648

Pathology

Atherogenesis during Low Level Hypercholesterolemia in the Nonhuman Primate. I. Fatty Streak Formation, 164

Atherogenesis during Low Level Hypercholesterolemia in the Nonhuman Primate. II. Fatty Streak Conversion to Fibrous Plaque, 178

Percutaneous atherectomy

Growth Characteristics and Cytoskeletal Organization of Cultured Smooth Muscle Cells from Human Primary Stenosing and Restenosing Lesions, 62

Perfusion chamber

Collagen Type III Induced Ex Vivo Thrombogenesis in Humans. Role of Platelets and Leukocytes in Deposition of Fibrin, 276

Peripheral circulation

Vascular Responses to Endothelin-1 in Atherosclerotic Primates, 1113

Permeability

Macromolecular Transport across Arterial and Venous Endothelium in Rats. Studies with Evans Blue-Albumin and Horseradish Peroxidase, 188

Role of Dying Endothelial Cells in Transendothelial Macromolecular Transport, 703

Roles of Calcium, Cyclic Nucleotides, and Protein Kinase C in Regulation of Endothelial Permeability, 410

Phorbol esters

Activation of Endothelial Cells Induces Platelet Thrombus Formation on Their Matrix. Studies of New In Vitro Thrombosis Model with Low Molecular Weight Heparin as Anticoagulant, 49

Phorbol myristate acetate

Expression of Elastase Activity by Human Monocyte-Macrophages Is Modulated by Cellular Cholesterol Content, Inflammatory Mediators, and Phorbol Myristate Acetate, 246

Phospholipid metabolism

Dysregulation of Lipid Metabolism in Tangier Monocyte-derived Macrophages, 1010

Phospholipid synthesis

The 12th Annual Meeting of the European Lipoprotein Club, 486

Pigs

Von Willebrand Factor and Occlusive Arterial Thrombosis. A Study in Normal and von Willebrand's Disease Pigs with Diet-induced Hypercholesterolemia and Atherosclerosis, 449

Plant sterols

Unexpected Failure of Bile Acid Malabsorption to Stimulate Cholesterol Synthesis in Sitosterolemia with Xanthomatosis. Comparison with Lovastatin, 289

Plasma fibrinolytic activity

Hemostatic Variables in Homozygous Familial Hypercholesterolemia: Effect of Regular Plasma Cholesterol Removal by Low Density Lipoprotein Apheresis, 1119

Plasma lipids

Effect of Dietary Fish Oil on Coronary Artery and Aortic Atherosclerosis in African Green Monkeys, 1102

Plasminogen activator inhibitor

Hemostatic Variables in Homozygous Familial Hypercholesterolemia: Effect of Regular Plasma Cholesterol Removal by Low Density Lipoprotein Apheresis, 1119

Plasminogen activator inhibitor-1

Secretion of Plasminogen Activator Inhibitor-1 from Cultured Human Umbilical Vein Endothelial Cells Is Induced by Very Low Density Lipoprotein, 1067

Platelet adhesion

Platelet Adhesion to Vascular Cells. The Role of Exogenous von Willebrand Factor in Platelet Adhesion, 462

Thrombogenicity of Vascular Cells. Comparison between Endothelial Cells Isolated from Different Sources and Smooth Muscle Cells and Fibroblasts, 437

Platelet aggregation

Hemostatic Variables in Homozygous Familial Hypercholesterolemia: Effect of Regular Plasma Cholesterol Removal by Low Density Lipoprotein Apheresis, 1119

Measuring Plasma Fibrinogen to Predict Stroke and Myocardial Infarction, 1

Platelet-derived growth factor

Effect of Growth Factors on Human Vascular Endothelial Cell Prostacyclin Production, 653

Tumor Necrosis Factor Induced Release of Endothelial Cell Lipoprotein Lipase, 470

Platelet secretory products

Platelet Secretory Products Increase Low Density Lipoprotein Oxidation, Enhance Its Uptake by Macrophages, and Reduce Its Fluidity, 559

Platelets

Analysis of Atherosclerosis Susceptibility in Mice with Genetic Defects in Platelet Function, 648

Collagen Type III Induced Ex Vivo Thrombogenesis in Humans. Role of Platelets and Leukocytes in Deposition of Fibrin, 276

Dose- and Shear Rate-dependent Effects of Heparin on Thrombogenesis Induced by Rabbit Aorta Subendothelium Exposed to Flowing Human Blood, 607

Whole Blood Impedance Platelet Aggregometry and Ischemic Heart Disease. The Caerphilly Collaborative Heart Disease Study, 1032

Polypeptide mitogens

Regulation of Differentiated Properties and Proliferation of Arterial Smooth Muscle Cells, 966

Population-based studies

Measuring Plasma Fibrinogen to Predict Stroke and Myocardial Infarction, 1

Porphyryns

Differential Effect of Photofrin II on Growth of Human Smooth Muscle Cells from Nonatherosclerotic Arteries and Atherosclerotic Plaques In Vitro, 616

Portal

"Portal" Adipose Tissue as a Generator of Risk Factors for Cardiovascular Disease and Diabetes, 493

Postprandial lipemia

Postprandial Lipemia and Lipoprotein Lipase in the Rabbit Are Modified by Olive and Coconut Oil, 421

Pre-beta high density lipoproteins

Pre-Beta High Density Lipoprotein. Unique Disposition of Apolipoprotein A-I Increases Susceptibility to Proteolysis, 25

Premature coronary artery disease

- Does Measurement of Apolipoprotein B Have a Place in Cholesterol Management?, 668
Is It Time To Measure Apolipoprotein B?, 665

Pressure gradient

- Noninvasive Ultrasound Evaluation of Pressure Gradients in Aortic Root of Homozygotes for Familial Hypercholesterolemia, 710

Preventive strategies
